PLATE ROOM

# Anderson & Vreeland Inc.

provides flexographic Printers and Converters with innovative solutions that are tailored to their specific application. We do this by identifying the most effective & advanced technologies in our portfolio, educating our customers on how these products will improve their bottom line, and seamlessly integrate these solutions into our clients' business. We are a privately-held company with over 60 years experience providing unrivaled customer service to the flexographic printing industry.

**PARTNERS IN FLEXO  
INNOVATION**

## Size and Scale

WORKING WITH YOU  
ON THE LOCAL LEVEL

Our extended North American presence can service customers of all sizes and in all locations. With eleven warehouses across three time zones, our trained sales consultants and support system will fulfill your needs quickly and efficiently.

Manufacturing our own products extends our expertise in the flexographic printing space and provides an opportunity to service and support customers directly with maintenance and training.

## Education

### FLEXO UNIVERSITY

Flexo University is the reflection of our commitment to advancing flexo education, including training employees, customers and supporting educational institutions offering flexographic studies.

Flexo University is a space dedicated to resources such as:

- Technical Blogs Posts
- Product and Technical Videos
- Technical Tips
- Webinars
- White Papers

All of our employees are also FIRST  
certified through the FTA.

# Technologies Team

The AV Technologies Team was developed in 2005 to assist with troubleshooting issues in prepress, plate-making and print. Our Technologies team is comprised of a group of diverse individuals who have strong backgrounds in design, color, plate-making, proofing and press applications.

## Research & Development

Our Technologies Center, located in Bryan, OH, allows us the ability to test products and find solutions to the problems that the flexo industry faces on a daily basis.

## Industry Involvement

We actively participate in many industry events by presenting technical sessions, hosting webinars, chairing events and being engaged on all levels.

## Installation & Training

Our team offers installation and training on the equipment we sell so that our customers are successful in implementing their new technologies.

# Digital Team

Our Digital Team works with our partners to find the best solutions on the market for each individual business' needs. They combine front-end workflow solutions with digital imaging solutions and more.

## Digital Workflow

Our Digital Team finds solutions for every step of the flexo printing process. This includes ERP, prepress and automation software and all the tools needed to build a productive workflow.

## Digital Imaging

Our Digital Team works with the top manufacturers to put together cutting edge CTP technologies that fit the different needs of each print shop.

## Digital Printing

Today there are many different digital printing options. Our team works with clients to find the right solution that fits their quality needs and budget.

# Equipment Team

Our Equipment Team focuses on supporting, installing and training our clients on various types of flexo plate-making and press room equipment.

## Mounting Devices

We carry a variety of mounting devices to help mount plates for wide web and narrow web printing.

## Sleeves

As sleeves grow in popularity for flexo printing, our equipment team has found solutions for sleeve storage to help control and manage inventory.

## Processing Equipment

We carry and support a wide range of equipment for water wash and solvent wash flexo plate-making.

## Thermal Platemaking

nyloflex® Xpress Thermal Processing System for flexographic printing plates – incorporating the speed of thermal plate making with incredible plate and print quality.

## Cleaning Solutions

We carry a range of unique solutions for safe cleaning of ink, adhesives, coatings and varnishes on anilox rolls and flexographic plates

# AVantage Liquid Team

Manufactured in our state-of-the-art facility in Bryan, Ohio, AVantage® liquid photopolymer resins are designed to meet the increasing demands of the molding industry for improved print quality and consistency while controlling costs and reducing environmental impact.

## Liquid Resin

AVCorrugated, AVBäg, AVStamp, AVMaster, AVCap and a full line of liquid photopolymer ancillary items.

## Liquid Ancillary Items

AVDEFOAM Defoamer, AVSALT Post Exposure Salts, AVDEV Liquid Developer, AVWASHOUT Solution, AVCOV Matte & Clear Cover Film, AVSUB 4&7 Mil Substrates

## Film

avSTAR Inkjet Film Solutions for film negatives using an Epson Inkjet printer, RIP, avSTAR coated film and custom avSTAR inks.
